

Navigate Medicaid Redetermination: Empowering Hospitals for Success

As the Medicaid re-enrollment process unwinds, providers are seeking insights into the impact on their patients and financial performance.

We support over 150 clients with our tech-enabled Eligibility & Enrollment solution and services. Our experts seamlessly integrate with hospitals, providing comprehensive financial patient advocacy. We have experience in all 50 states streamlining re-enrollment, minimizing uncompensated care, and optimizing hospital reimbursement by identifying both government and commercial insurance coverage options for patients and their families.

Our Process Includes

- **Partnering with existing staff** and simple plug-and-play integration
- **Identifying and re-enrolling in-house Medicaid patients** at risk of losing Medicaid
- **Ensuring responsiveness and completeness of information for Medicaid enrollment patients**, including – conducting field visits/ house calls, text messaging, links to state enrollment sites, easy and faster document collection.
- **Enrolling patients in alternate insurance plans if they do not qualify for Medicaid re-enrollment** (e.g., Health Exchange Plans, Commercial Insurance, other Government Programs)
- **Offering innovative technology** focused on data analytics and automating patient data assimilation and deploying certified application counselors to aid patients during the application process.

How We Help
